

Web History tutorial using Internet Explorer 9.0+

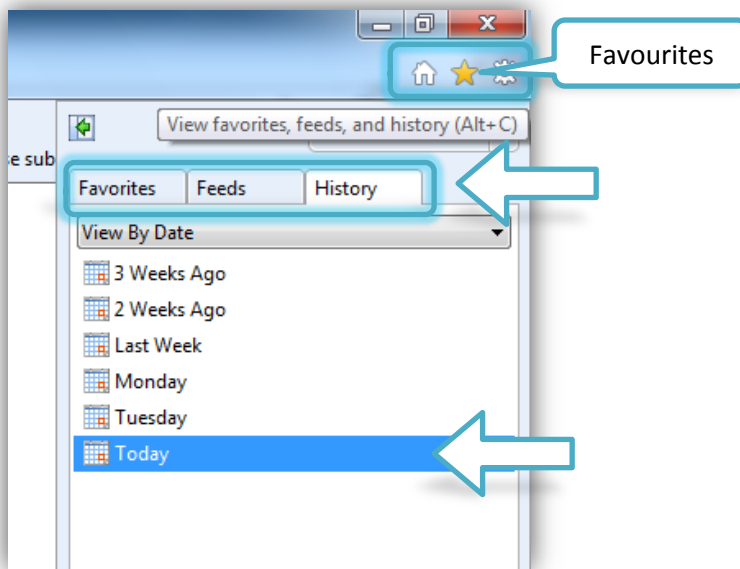

Step 1

On Windows 7, click on Internet Explorer.

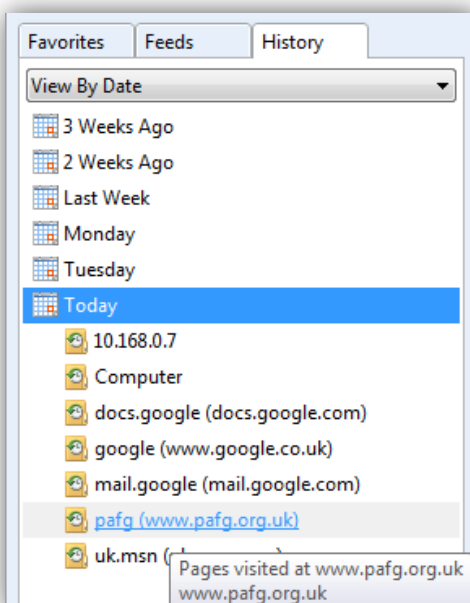

Step 2

At the top right corner of your web browser. Click on the Star shape symbol. This will drop down the Favourites, Feeds and History tabs as shown below.

Step 3

Clicking on the History tab, this will host a list of calendars which features all websites you have visited daily and weekly.

Clicking on individual website branches opens up the specific pages you have visited within that website.
